

Power/4-20mA cable

The power/4-20mA cable powers the SulfiLogger™ sensor and delivers a 4-20mA analogue sensor signal to SCADA/PLC systems.

This cable is required to use the SulfiLogger™ sensor regardless of your choice in data output.

Technical specifications

	5 metre (16.4 ft)
Cable lengths	10 metre (32.8 ft)
	30 metre (98.4 ft)
Cable weights	0.15 kg (0.33 lb) – for 5 metre cables
	0.35 kg (0.77 lb) – for 10 metre cables
	1.05 kg (2.31 lb) – for 30 metre cables

Additional specifications

Encoding	M12
Cable diameter	5 mm

Cross-sectional area	5 * 0.34 mm ² / AWG 22
Conductor resistance	60 Ω/km (20 °C)
Rated voltage	250 V
Rated impulse voltage	60 V
Rated current (40 °C)	4 A (3 A UL)
Sheath material	PUR
IP protection degree	IP68
EMC compliance	Unshielded
